Hi Esther,

I spent quite a bit of time on the teachqr website this winter and spring and never had a problem opening the videos, but I see they are not working now.

The videos that were linked to Units 1 and Unit 2 that are from NICHE both work (I watched them last week) and I just checked all of the assigned reading/ viewing for both Units 1 and 2 and all of the videos still work. I didn't see anything that was assigned from the teachqr website, but when I checked the website itself, I see what Laura found.

I am working very hard to get ahead over the coming days (and the summer courses are over a week from tomorrow) and I will be traveling to a conference tomorrow, which will give me a few days of travel time.

Best,  
Sarah
